Basecoat Tinter

Eclipse Basecoat is a complete high quality Acrylic Polyurethane basecoat system. It produces plain or metallic colors, based on 56 tinters including 15 pearlescent and iridescent colors and 6 xiralllic. This high pigmented system provides an economical ready for use coating that gives greater coverage and time savings in application because 2 coats are sufficient. This results in minimal waiting time for the application of the top coat.

**Promix Fast - QAD Topcoat
Matt Black (5lit), Gloss Black (5lit), Satin Black (5lit & 1gal) & Gloss White (5lit)**
