

**ProCut**

Size 1kg & 250g  
Code: PCG20-1  
PCG20-250

Procut is a single-stage, high-performance cutting compound that has been specifically developed for the refinisher and detailer, removing severe paint defects in seconds and resulting in a high gloss finish.

- Polishes P1200-1500
- Extremely fast cut
- Single-stage compound and polish
- Zero VOC content
- Long working time with very low dust
- Zero fillers

**Physical Properties**

Physical state:	Paste	Ignition temperature in °C:	>200
Colour:	White/transparent when used	VOC content:	Zero (0.0g/l)
Odour:	Odourless	Shelf life:	2 years
Flashpoint:	130°C	Storage temp:	15°C - 25°C

**ProFinish**

Size 1kg & 250g  
Code: PFG20-1  
PFG20-250

ProFinish guarantees a perfect gloss finish on all colours, including difficult dark colours. This unique polish formulation is based on a microfine, high purity aluminium oxide powder that quickly and easily eliminates any swirl marks, holograms or light scratches from the final coating.

- Excellent for dark colours
- Extremely high gloss
- Hologram free finish
- Zero fillers

**Physical Properties**

Physical state:	Liquid	Ignition temperature in °C:	>200
Colour:	White/transparent when used	VOC content:	135 g/l
Odour:	Characteristic	Shelf life:	2 years
Flashpoint:	61°C	Storage temp:	15°C - 25°C

**Hard Compound Pad**

Pack of 2  
Code: HPG20-150/2

The Hard Compound Pad has been specially developed in conjunction with Procut Extreme Cut Compound.

- 3D crosscut technology
- Enhanced cutting performance
- Intelligent heat regulation

Open-cell foam  
Size: 140mm

**Medium Polish Pad**

Pack of 2  
Code: MPG20-150/2

The Medium Polish Pad has been specially developed in conjunction with both Procut Extreme Cut Compound and the Generation20 ProFinish Polish.

- Suitable for both compound and polishing
- Recommended pad for the ProFinish Polish
- Central hole to reduce heat

Open-cell foam  
Size: 140mm

<b>Application</b>	<b>EXTREME CUT</b> Single-stage compound and polish to easily remove P1200-P1500 flattening marks resulting in a high-gloss finish	<b>MEDIUM CUT</b> Single-stage compound to quickly remove scratches and marks from new and old paintwork resulting in a high-gloss finish	<b>FINAL POLISH</b> Final finish polish to be used in conjunction with the previous two applications for a superior high-gloss and hologram free finish, especially for dark colours
<b>Compound or Polish</b>	ProCut 	ProCut 	ProFinish 
<b>Recommended Pad</b>	Hard Compound Pad 	Medium Polish Pad 	Medium Polish Pad 
<b>Process</b>	Use a small amount of ProCut spread evenly on the Hard Compound Pad. 1st pass with polisher at 1000 rpm then increase speed to 1500-2000 rpm. Wipe off with microfibre cloth	Use a small amount of ProCut spread evenly on the Medium Polish Pad. 1st pass with polisher at 1000 rpm then increase speed to 1500 rpm. Wipe off with microfibre cloth	Use a small amount of ProFinish spread evenly on the Medium Polish Pad. 1st pass with polisher at 1000 rpm then increase speed to 1500 rpm. Wipe off with microfibre cloth
<b>Main Benefits</b>	<ul style="list-style-type: none"> <li>• No need to use finer than P1500 discs</li> <li>• Super-fast process</li> <li>• Only needs one product</li> </ul>	<ul style="list-style-type: none"> <li>• Super-fast process</li> <li>• Only needs one product</li> </ul>	<ul style="list-style-type: none"> <li>• Superior high-gloss finish</li> <li>• Eliminates come-back with holograms on dark colours</li> </ul>
